BAR CODE PRINTING TERMINALS

The PrintPad bar code printing terminals from Teklynx™ allow you to download labels and data from any PC to produce sophisticated bar code, graphic, and alphanumeric labels. Using CODESOFT™ or LABELVIEW™ label design software, the PRINTPAD printing terminals work with more than 500 different thermal and thermal transfer printers.

TEKLYNX

PrintPad™

Easy, Programmable, Powerful, Cost Effective Printing Terminals.

Easy

Simple installation and intuitive menus make it easy to generate any label, sheet or tag. Using the PRINTPAD terminals, you can download entire product and customer databases for easy one-step printing. At less that 2 lbs. (1kg.) PRINTPAD is the ultimate in both ease of use and portability.

Programmable

With interfaces for all popular bar code printers and support for many languages and a wide array of international characters, PRINTPAD terminals allow you to organize printing for virtually any application.

Powerful

The PrintPad terminals allow you to control print jobs either by scanning bar codes with its integral scanner or via keyboard entry. Operating up to 4 printers simultaneously PRINTPAD terminals can store hundreds of label formats and can import data from scales, scanners and verifiers. PRINTPAD's integral date and time stamping capability ensures both accurate label printing and tracking. And, like all TEKLYNX products PRINTPAD terminals are Year 2000 compliant.

Cost Effective

PrintPad bar code printing terminals are half the cost of most PCs and have lower maintenance costs, saving you money in both the short- and long-term. PCs also require training for operators. With PrintPad terminals the learning curve is much smaller allowing for cost savings by increasing productivity.

PRINTPAD GENERAL SPECIFICATIONS

THE TEKLYNX™ GLOBAL ADVANTAGE.

PrintPad terminals are from TEKLYNX, the world's largest automatic identification and data collection software (AIDC) publisher and the only AIDC software publisher with truly global product development, tech support, sales and marketing resources.

As a PrintPad customer, you will benefit from TEKLYNX's years of experience in the development of world's best-selling label design software packages, CODESOFT™ and LABELVIEW™, the world's most advanced host printing solution SENTINEL™, and the powerful data management software EZTrak™.

CHOOSE THE LEADER.

Select the leader in identification integration software from the leading AIDC software publisher, TEKLYNX™.

PrintPad Applications.

RETAIL
- Tag and bar code thousands of items in your store or plant
- Create unique labels to personalize and package merchandise
- Meet compliance labeling requirements

PRODUCTION
- Label a variety of items on the production floor
- Print complex labels with text, bar codes and graphics
- Print serial numbers
- Log production information
- Scan items for accuracy

SHIPPING
- Expedite complex shipping requirements
- Use one PrintPad terminal to connect to several printers
- Print up to four different labels
- Import data from scales, scanners and verifiers
