Enterprise Tablet Computer

ET100

Professionalize your work with the ET100. Offering real-time visibility, rapid data processing and seamless payment solutions, this premium enterprise tablet is built to fulfill various demands of the industry.

Operating on the latest Windows systems, the ET100 is a host for many essential business applications. Bluebird will give dedicated support in equipping you with the right tools and guide you from installation to bringing applications at maximum working capacity.

The ET100 is meticulously crafted inside and out. It's completely resistant to dust, protected against jets of water and is able to survive multiple impact-damage from drops and tumbling.

Be assured knowing that every component has been tested thoroughly to reach an immaculate state strong enough for the harsh environments.

While covering many functions needed for industrial environments, it is particularly popular amongst drivers. With the secure in-vehicle-mount accessory, this tough enterprise tablet is perfect for use in forklifts, trucks and other industrial vehicles. Furthermore, the ET100 can be used in computer assisted design, maintenance jobs and in healthcare facilities with its abundance of business applications. Take hold of this supreme mobile device and stay on top of the industrial world.

Key Features

TankSmith™ ruggedness

Bluebird's products guarantee top-notch quality by incorporating the proprietary TankSmith™ technology. All components are designed with industrial use in mind and have been tested in the field to eliminate any possible operational failures. In addition, components will not be discontinued for the next 5 to 7 years to ensure availability and support. Along with solid particle and liquid ingress protection, the ET100 is purpose-built to withstand rigors of harsh industrial environments..

multi OS support

The ET100 has many choices for OS, which includes Windows Embedded Standard 7(optional), Windows Embedded 8.1 Industry Pro Tablet and Windows 10 Home or Pro. Customized OS support by Bluebird's dedicated team will guide you from installation phase unto maximum working capacity to serve you with the most reliable environment for your business to flourish.

light yet strong

In compliance to the MIL-STD 810G standard, the ET100 is a premium enterprise tablet well suited for industrial use. Weighing only 985g, it has IP65 sealing and has been tested to withstand 1.2m / 4ft drops, 1.8m / 6ft drops applying the rugged plug. Confidently use the ET100 in harsh conditions and don't let a minor accident get in the way of your operation.

efficient Processor, longer battery cycle

The ET100's extreme power saving design takes full advantage of a low power consumption processor without sacrificing performance. Use the standard (6,000mAh) battery and avoid down time with the Hot Swap function.productivity.

large display, equipped for industrial purposes

Built to last in tough environments, the ET100's display has diverse features to make your operation a smooth and convenient process. Featuring a 10.1" IPS panel, it is encased in Corning® Gorilla Glass® 3 with NDR (native damage resistance) and anti-fingerprint sealing. Furthermore, it has sun glare protection and can be operated equally well with a stylus pen or industrial gloves.

excellent communication and network connectivity

Whether indoors or outdoors, the ET100 provides exceptional network connectivity with a wide range of radio frequencies and Bluetooth capabilities. With WLAN supporting 802.11 a/b/g/n/ac as well as Bluetooth V4.0 LE, be assured in knowing that Bluebird has you covered wherever you go.

various payment methods

Offer convenience to your customers with the ET100's all inclusive payment options. They include: Magnetic stripe readers, Smartcard readers (ICC, EMV level 1&2) and Contactless payments. (NFC, MasterCard, PayPass, Visa PayWave, MiFare, Felica).

optimized camera for industrial demands

The ET100 is equipped with an auto focusing 5.0 megapixel camera, providing great performance in speed, accuracy and high image quality that industrial imaging professionals expect.

accessories for expandability

Bluebird always provides for the individual needs of customers with a variety of accessories for ease of use, mobility, data capture and payment solutions.
